

Whispering Meadows Snow Removal

Winter is fast approaching and the weather will be changing, which brings up the subject of snow and snow removal.

After a significant snow fall, **ALL** cars need to be removed from the parking lot in order for the snow plows to remove the snow from the individual parking spaces. The parking lot will be plowed beginning at 12:45 PM.

If the storm ends by 7am – then the individual parking spaces will be cleared that day, if not the snow will be cleared the next day.

Any cars left in the parking lot after the allotted time, will be towed at the car owners expense.

Thank you for your cooperation and attention to this matter.
